Trellis for Tomorrow seeks to build more resilient communities through youth development, access to healthy food sources, and the advancement of environmental sustainability. We provide long term opportunities for teens and adults to manage organic gardens and create innovative pathways for tens of thousands of pounds of harvested produce to be delivered to individuals and families in need. Through our programming, diverse groups of youth learn the value of hard work and their power to positively impact to the health and wellbeing of their community.

### Summer Programs

### After School & Weekend Programs

### Community Programs

### Our Mission

To create transformative, real-world opportunities for youth and communities through teaching critical life skills, promoting personal growth, and connecting youth to mentors, their communities, and meaningful employment.

### Our Vision

We envision a world in which young people have the skills and understanding to enrich themselves, their communities and their planet through healthy lifestyles, meaningful work, and participation in a more just and sustainable economy.

### Our Values

Consciousness – We cultivate wellness of body and spirit in ourselves and the individuals we serve.

Collaboration – We partner with others to identify synergies, build on strengths and collectively reach new heights.

Sustainability – We exercise stewardship of resources in our organization, homes and in our communities

Creativity – We work to bring new perspectives and innovative approaches to challenges large and small.
